**IMECHE**

[imeche.org/membershippartner](http://imeche.org/membershippartner)

# OUR GLOBAL NETWORK

**Our global network of members are employed at the heart of the most dynamic and successful engineering businesses in the world.**

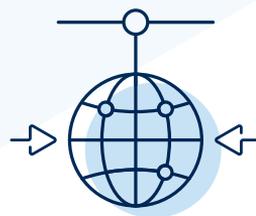

We offer membership and professional registration solutions for you and your engineers, ensuring they meet industry-recognised standards of engineering excellence.

Membership Partner is IMechE's membership and professional registration offer for organisations committed to the development and recognition of their technical staff and teams.

Become an IMechE Membership Partner and access our unique membership portfolio designed to help your business grow and excel.

Working in collaboration with you we can deliver a personalised and effective programme of support to help you:

- ▶ Attract, retain, and develop the best technical employees
- ▶ Achieve globally recognised standards of excellence
- ▶ Create an innovative, informed, and diverse workforce

# MEMBERSHIP AND PROFESSIONAL REGISTRATION

Whether your staff and teams are working towards professional registration, wish to progress to a different category of membership or simply have an interest in the world of engineering – we can support you.

## Membership Options

- **Apprentice and Student Affiliate**

Our free Affiliate Membership is designed for those on an apprenticeship or undertaking their first degree. It provides all the knowledge, news and support needed to help them throughout their studies.

---

- **Affiliate**

For those with an interest in engineering and who want to be part of a leading institution in the sector – this is the membership for them.

---

- **Associate (AMIMechE)**

For graduates with a science, technology, engineering and mathematics (STEM) degree, our Associate Membership can support them on their journey to professional registration.

## Professional Registration

Professional registration is an independent, globally recognised benchmark demonstrating engineering competence and experience.

### Membership Options

- **EngTech (EngTech MIMechE)**

For technicians who use proven procedures to solve practical engineering problems and can demonstrate learning to NVQ/SVQ Level 3 or similar.

- **Incorporated Engineer (IEng MIMechE)**

For those who are often involved in operational roles, maintaining and managing the application of technology at the highest efficiency and can demonstrate learning to a Bachelor's degree level.

- **Chartered Engineer (CEng MIMechE)**

For those involved in solving engineering problems either by innovation, creativity or change and can demonstrate learning to the equivalent of a Master's degree.

- **Fellow (EngTech FIMechE, IEng FIMechE, CEng FIMechE)**

Fellowship with the Institution is a mark of exceptional commitment to, and innovation in, mechanical engineering. It is the most senior category of membership.

**Professional registration is an independent, globally recognised benchmark demonstrating engineering competence and experience.**

# MEMBER BENEFITS

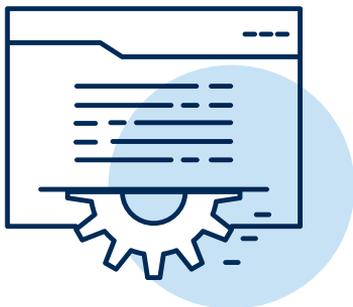

## Your cost-free member benefits:

### ▶ 1. Dedicated account management

- A single point of contact to support you and your employees
- A bespoke partnership package suited to your needs
- Access to experts in professional registration and the engineering sector

### ▶ 2. Supporting your engineering community

- Membership and professional registration events delivered in-company or online
- Feedback and review of all registration applications
- 1-2-1 support delivered via phone/video calls
- Support for IEng/CEng interviews

“““

**I have achieved success with my CEng application. IMechE's workshop gave me the confidence and direction to get it done after so many years.**

**Moti Ahmed**  
CEng MIMechE

▶ **3. Continuing Professional Development (CPD) Support**

- Specialist CPD and mentoring guidance and training
- Our online platform CPD tools for registered members to record their CPD
- Volunteering opportunities
- Discounted events, training and webinars (costs apply)
- The latest engineering news via our print magazine, app and online news

▶ **4. Support for students and apprentices**

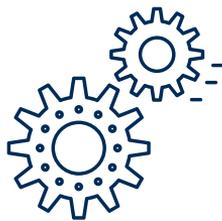

- Online tools for graduates to help them achieve professional registration
- An approved scheme to support apprentices to become EngTech registered

# CAREER DEVELOPER

**Career Developer is designed to support members on their professional journey.**

**Career Developer is an online portal for members so they can manage their professional development.**

- ▶ Supports members throughout their career
- ▶ Enables competence development and career planning
- ▶ Easy and straightforward to use

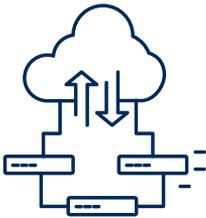

## **Monitored Professional Development Scheme (MPDS)**

An approved and quality-controlled route for graduate engineers.

## **Supported Registration Scheme (SRS)**

A disciplined and regular reporting framework for companies not accredited for MPDS.

### **Developing Engineers Programme (DEP)**

Online tools, guidance, and support for graduate members.

### **CPD Tools**

Online tools for professionally registered members to record their experience and professional activity.

The screenshot shows a web browser window with the URL [imeche.org/membershippartner](http://imeche.org/membershippartner). The page is divided into two columns. The left column is titled 'Working with students and apprentices' and features an icon of a person at a laptop. The right column is titled 'Working with organisations' and features an icon of a person at the top with three people below them. Both columns list benefits with blue plus icons.

# JOURNEY TO PROFESSIONAL REGISTRATION

“““

**We work with applicants globally – providing in-depth knowledge and advice on membership and professional registration.**

# WORKING WITH RUBBERATKINS

## **At Rubberatkins we provide innovative and reliable high-performance sealing solutions.**

- We add value to our partners, by providing expertise that reduces the overall cost of ownership and support of our products, through superior performance or enhanced service life.
- 

Professional registration is important to our organisation as it provides a structure for continuous professional development and a way to externally validate engineering competence. We've really embraced this as part of our culture for developing engineers. IMechE's accredited Monitored Professional Development Scheme (MPDS) has allowed us to tap into a high-quality candidate pool.

Working with the IMechE is one of the things that helps to define the culture we're trying to create at Rubberatkins - continuous improvement in everything we do, ourselves, our products, and our processes.

It gives us an external perspective on how to develop our engineers, and ensure that we keep one eye on our own CPD. The validation of our MPDS, makes us a more attractive employer to the high-quality candidates that we aim to hire.

# EXPERTS IN PROFESSIONAL REGISTRATION

**Our Global Membership Development Team are experts in the process of professional registration.**

They work with applicants globally – providing in-depth knowledge and advice on membership and professional registration.

They can provide support and advice via webinars, workshops and 1-2-1 guidance including:

- ▶ Qualifications and experience required
- ▶ Preparing for interview
- ▶ Completing the application
- ▶ Guidance for students, graduates and apprentices

Our professional registration events and resources are all free and your staff do not need to be members to access them.
